Elissa Sibomana

PROFILE SUMMARY

Full-Stack Software Developer with hands-on experience building and improving real-world web applications. I work across frontend, backend, mobile, APIs, and databases, and can adapt to different technologies and project requirements. I turn ideas and business needs into practical, reliable software.

PROFESSIONAL EXPERIENCE

Project-Based Full-Stack Developer, Construct KVV, *Construct Kvv*
01/2026 – 07/2026
Kigali,Rwanda

- Built the web and mobile applications for a construction marketplace connecting homeowners with contractors, suppliers, and construction professionals.
- Developed backend APIs and services supporting core platform functionality.
- Implemented responsive interfaces and integrated frontend and mobile applications with backend services.
- Contributed to AI-powered construction cost estimation and other core platform features.

Software Development Intern, *Intouch communications Ltd*
02/2026 – 06/2026
Kigali, Rwanda

- Redesigned and modernized the InTouchSMS client web portal.
- Built responsive interfaces for SMS campaigns, contacts, scheduling, dashboards, and account management.
- Integrated frontend features with existing backend APIs and services.
- Improved usability and responsiveness of the live production platform.

Full-Stack Developer, *Fika*
06/2026 – Present
Kigali,Rwanda

- Joined as a Frontend Developer and developed responsive web interfaces for the FIKA logistics platform.
- Built and integrated features for client, transporter, and clearing agent workflows.
- Developed and maintained backend APIs and services as my role expanded into full-stack development.
- Implemented features including business registration and verification, carrier browsing, vehicle and route management, and logistics workflows.
- Collaborated with the development team to deliver and improve production features across the platform.

EDUCATION

Software Programming & Embedded Systems, *Rwanda Coding Academy* 10/2022 – 07/2025
Nyabihu,Rwanda

Strong foundation in software engineering, including backend development, frontend development, databases, and embedded systems. Built multiple full-stack applications through practical software development projects.

SKILLS

Backend
Java (Spring Boot), Node.js, Express.js, NestJS, Python, Django, FastAPI, Prisma ORM, TypeORM

Frontend
HTML, CSS, JavaScript, TypeScript, React.js, Next.js, Tailwind CSS, Bootstrap

Mobile
Flutter, React Native

Databases
PostgreSQL, MySQL, Redis

Other Technologies
REST APIs, CI/CD, Docker, GitHub

Soft Skills
Teamwork, Communication, Problem-Solving, Fast Learning

KEY PROJECTS

FIKA Logistics Platform, *Developed frontend and backend features for a logistics platform coordinating freight transportation across East Africa.*

InTouchSMS, *Redesigned and modernized the InTouchSMS client web portal for InTouch Communications.*

Construct Kvv, *Built web, mobile, and backend applications for a construction marketplace connecting homeowners with construction professionals.*

Moonlight Events, *Built a responsive event services website using Next.js, showcasing services, events, gallery, and booking functionality.*

Languages

- English
- Kinyarwanda
